

Local Content Policy

Cleandustrial Services operates solely in WA throughout the wider Perth metropolitan and Peel regions, and does not have any interstate or overseas interests. All regular and periodical services, including administration and contract management is undertaken locally in Western Australia and managed from our central office in Kardinya.

Cleandustrial Services proactively supports the local communities of our clients by recruiting directly from the areas where the contracts are located. When preferred by the client, through negotiations with the previous contractor, Cleandustrial gives preference to existing cleaning staff living in the local area. Should this option not be suitable or preferred, the opportunity for employment is extended to other local residents.

Cleandustrial Services is committed to sourcing subcontracting services, material, equipment and chemical supplies from local WA suppliers whenever possible. In the rare event where Cleandustrial is not able to source essential services or products manufactured locally in WA, or nationally in Australia, we endeavour to use only those subcontractors and suppliers which implement correspondingly high standards in their workplaces, particularly in regards to the following:

- Health and Safety
- Discrimination
- Working Hours
- Disciplinary Practices
- Freedom of Association & Right to Collective Bargaining
- Remuneration
- Child Labour
- Forced or Compulsory Labour.

TAMMY VLADICH
