

Risk Management Policy

Cleandustrial Services Pty Ltd is committed to identifying and managing the strategic, operational, contractual and business risks impacting the whole company at all operational levels. By ensuring consistency in the application of risk management principles, the company aims to improve its performance with regard to:-

- Achieving professional, strategic and operational objectives;
- Safeguarding the company's human, financial, reputational, physical and intellectual assets;
- Utilising robust processes which are transparent, inclusive, iterative and responsive to change;
- Ensuring consistency of risk management practice and implementation across all facets of the organisation.

Cleandustrial Services resolves to reduce the effect of uncertainties on our goals by:-

- Recognising that risk management is an integral part of good business practice and quality management;
- Understanding that management of risk is not only an operational function, but is also a fundamental component of strategic, budget and project planning.
- Improving corporate governance and establishing a reliable and systematic basis for decision-making and planning.
- Communicating and implementing its principles and practices throughout the company in a timely, consistent and user-friendly manner.
- Demonstrating its performance through regular monitoring and reporting.

Cleandustrial recognises that risk management is an activity which encompasses the whole company. As such, management and staff at all levels are responsible for developing an understanding of and becoming competent in the implementation of risk management principles and practices in their work areas. To achieve this, Cleandustrial is committed to providing a user-friendly, cost-effective framework which facilitates continual improvement by allowing participation in the setting and review of risk management objectives and practices at all levels of the organisation.

TAMMY VLADICH
